

Thomas Swan & Co

Press Release

Issued by: Curvaceous Software Ltd.
Issued on: 21/03/05
Contact: Clare Brooks

Curvaceous Software Ltd is pleased to announce that Thomas Swan & Co have become the latest company to adopt their Geometric Process Control (GPC) technology for process improvement. The technology will be used to help further their Continuous Process Improvement program at their plant in Consett, County Durham, UK.

I. F., Site Operations Manager

"We chose Curvaceous because it offered a new visual method for analysing complex process data that everyone on our site could understand. We are looking forward to making new discoveries with this novel technology."

Visit www.curvaceous.com for more information regarding the unique GPC technology.
